# STIMULUS Instant Asset-Writeoff threshold increased from \$30,000 to \$150,000!

DEADLINE  
NOW  
EXTENDED

**The government is increasing the instant asset write-off threshold from \$30,000 to \$150,000, it is also expanding access to the scheme to include businesses with aggregated annual turnover of less than \$500 million (up from \$50 million).**

This scheme is only available for the remainder of the financial year, which means it covers any assets purchased before 30 June.

The threshold applies on a per-asset basis, meaning businesses can write off multiple assets. It also applies to both new and used assets, so long as the assets have been purchased in the current financial year.

The government said in the 2017-18 financial year, more than 360,000 businesses used the instant asset write-off, claiming deductions valued at more than \$4bn.

For more information, see the fact sheet from the Treasury, as well as the Treasury website.

Stimulus package:  
PM - Scott Morrison

## Government Stimulus Offers

### SME Guarantee Scheme

Under a new SME coronavirus guarantee scheme, the government has pledged to guarantee 50% of new short-term, unsecured loans to small and medium businesses.

The government will guarantee up to \$40 billion in new lending, in a bid to further encourage new credit to SMEs.

In addition, for lenders providing credit to existing SME customers, the government is providing a temporary exemption from responsible lending obligations, meaning small business owners could access cash more quickly and efficiently.

### Pause on small business loan repayments

There is also relief for small businesses already repaying loans. On Friday, the Australian Banking Association announced Aussie banks are pressing pause on repayments for small business loans.

This is expected to apply to more than \$100 billion in existing loans, and could return up to \$8 billion to Australian businesses.

**Presidential urges clinic owners to please ensure you are making the most of the incentives and funds relief available to small businesses during this challenging period. Please also discuss what is applicable in your particular situation, with your accountant or financial advisor.**

**A-dec 200 is a great value package, complete with new features for added accessibility and comfort.**

**All from the people who build the most dependable dental equipment in the world, A-dec.**

A hands-free solution for extra-oral aerosol capture.

### A-dec® Third-Hand HVE Holder

Efficiency and safety come together in a practical solution for aerosol capture. The **A-dec Third-Hand HVE Holder** makes it easier to practice two-handed dentistry while maintaining essential aerosol control. The flexible arm securely positions the HVE tip to within 1" of the oral cavity—delivering precise, effortless aerosol capture while keeping hands free for scalers and instruments. It's a simple, affordable way to bring more functionality to your surgery.

Glide bar clamp attaches securely to your A-dec chair with no special tools needed.

Flexible design accommodates patients of all sizes, for easy entry and exit from chair.

From hands-free to hands-on: Simply lift the HVE out of the holder for direct control.

Easily adjusts for right- or left-handed clinicians, and four-handed procedures.

#### PRODUCT FEATURES

- Provides hands-free aerosol capture with existing 15mm or 11mm HVE
- Allows access to within 1" of oral cavity
- Flexible arm for easy positioning
- Radius design for right- and left-handed users
- Accommodates patients of all sizes
- Fits most A-dec dental chairs

## Scan & Communicate

### Smart Scan Filtering

Remove unnecessary soft tissue data which is one of the biggest challenges when performing scans.

### Medit Ortho Simulation

Help the patient visualize potential results of an orthodontic treatment.

### Cloud-based Service

Store all data in the cloud. Work on your original scans, archive your digital impressions and orders, manage your cases wherever you are.

### Smart Color Filtering

Automatically filter the color out during scanning, reducing the number of artifacts and making retraction easier.

### Medit Smile Design

Show the patient their future smile or help them envision a braces treatment.

### Web Viewer & Case Talk

Experience smoother communication, with partners. View scan data on any device and share notes. All data is stored securely.
