Greater Sydney/QLD

Michelle De Blasis
0422 391 596
VIC/TAS/QLD

"Michelle De Blasis is the rep who we dealt with. She is professional and super efficient.

It made buying our A-dec chair a smooth operation, even with some changes such as refurbishing an existing chair and relocation. To put things into perspectives, a competitor company only got back to us regarding our A-dec chair purchase enquiry a few weeks after our chair (sold by Michelle of Presidential) was installed! Totally happy."

Dr Cindy Nguyen

"Incredible service from the very start by Michelle and Presidential Team. Michelle is exceptionally professional and organised and had all our orders in a timely manner. The servicing and installation team led by Lars and Darcy were fantastic at liaising with the builders directly and had everything installed and good to go without any hassle.

Highly recommend!"

Dr Shrey Surya

"I have had amazing service and quality workmanship from the whole service installation and sales team at Presidential!!! I had a compressor and suction break down and was unable to work, two technicians worked to get me up and running with dedication, knowledge, and great service!! They were amazing and I am very grateful and happy!! It's nice to know as dentists that patients can turn to us; and we too can turn to a team like this for excellent care!! Michelle from the sales team is very dedicated and committed to her job and definitely cares!!! I totally recommend them to every dentist in Australia!!!"

Dr Nicola Stephen

"I wholeheartedly recommend Presidential as a dental supplier, and I cannot speak highly enough of Lee's exceptional professionalism, honesty, promptness and patience. Her expertise, dedication and unwavering support have been instrumental. I am grateful for her invaluable assistance and the outstanding service she has provided. Presidential and Lee have undoubtedly exceeded my expectations, and I am confident in their ability to deliver exceptional products and services to all their customers.

Thank you, Presidential, and a special thank you to Lee for your remarkable support!"

Dr Ben Lee

"We are using new Lisa VA-B and are very happy with the performance of the sterilizer and the customer service of Luke and Presidential Team."

Dental Embassy

"Luke Williams and his team at Presidential are a pleasure to deal with. From purchase to delivery and after sales support their customer service is next to none. I would highly recommend them to anyone looking to purchase equipment for their surgery."

Dr Gabriel Maratheffis

"I have been working with Presidential and A-dec for a number of years.

Presidential is always quick to get back to me, provides fantastic pricing and stays in regular contact. Presidential's service is always fantastic - from install to maintenance. My A-dec 500 chairs are completely reliable and provide outstanding comfort for my patients. If you are looking for new equipment contact Presidential and they will look after you!"

Dr Mehdi Rahimi, Chatswood

"Our surgery has been involved with many service companies over the years and Presidential has been the stand out from all the companies we have used before. The standard of service, prompt response and excellent sales service from Presidential is unprecedented. Thanks to Presidential Team!"

Dr Jason Pireh, Kellyville

Enbio Pro & Enbio S

enbio®

Enbio sterilisers are up to 6 times smaller and 3 times lighter than a typical class-B / vacuum autoclave. But when it comes to work efficiency, they keep up the pace.

Superfast sterilisation

Up to 4 times faster cycle time than the typical autoclave.

Perfectly dry pouches in no time

Enbio S sterilises a load of wrapped instruments in just 15 minutes (Enbio Pro – 18 minutes).

Emergency sterilisation

In case of emergency, you can sterilise unwrapped instruments for immediate use in just 7 minutes.

Simple

Enbio is so simple to install and operate that it takes longer to explain how simple it is.

Inaudibly silent

Enbio autoclaves work unbelievably silent. Wherever you use it, nobody will notice it's working.

Enbio Magic Filter: forget about water

Imagine a race car covering a long distance on a teaspoon of fuel. Enbio autoclaves are like that. With Enbio Magic Filter as a standard equipment, they can run up to 1000 processes on just 1 litre of demineralised water. No tap or sink required.

Enbio S. Speedmaster.

Enbio S is compact to fit even a cramped space. Unbelievably short process times will save your procedure in emergency, or allow sterilisation of the instruments as you go, between patients.

Enbio PRO. Small foot. Big space.

Enbio PRO is an ideal solution as a basic workhorse in a small practice. Superfast sterilisation and room to hold most of the instruments, including popular implant cassettes.

Vatech EzRay Air Portable

vatech

WEIGHT INNOVATION WITH CNT (CARBON NANO TECHNOLOGY)

The world's first dental application of Carbon Nano Technology. The EzRay Air Portable is a lightweight portable x-ray device that is designed for easy handling and stable positioning, delivering optimal image quality for your intra-oral x-ray images.

DOUBLE SCATTER SHIELD DESIGN FOR OPERATOR SAFETY

INTERNAL SHIELDING

The internal radiation shielding is perfectly designed to protect the operator from radiation leakage.

EXTERNAL BACKSCATTER SHIELDING

Exposure to radiation results from the beam interacting with the surface of the patient, causing radiation to bounce off as radiation scatters in different directions. The backscatter shield significantly reduces the amount of radiation being reflected.

ASK US FOR BEST PACKAGE PRICING!

LOWER COOLDOWN TIMES, FASTER WORKFLOW

The EzRay Air Portable's unique carbon-nano technology efficiencies, which are not available in traditional x-ray generation methods, means there is a 75% reduction in cool-down time between shots, when compared to leading competitor's devices. This allows users to spend less time waiting for their x-ray to be ready and more time diagnosing and treating the patient.

NO WARMUP TIME

With no initial start-up delay for conventional x-ray sources to warm up, the EzRay Air Portable's Carbon Nano Technology optimizes workflow by allowing for quicker exposure after you initially turn on the device.

Vatech EzScan

EXPAND YOUR DIGITAL WORKFLOW

CALL US FOR SPECIAL PRICING!

SIMPLE AND INTUITIVE INTERFACE FOR AN IMPROVED SCANNING EXPERIENCE

- Clear and intuitive interface for ease of use
- Essential functionality for many treatment plans

CASE SHARING

- EzScan Cloud is an easy-to-use file-sharing module for sharing digital impressions with the lab of your choice.

QUICK SCAN TIME FOR WORKFLOW EFFICIENCY

- Full arch scans in under 1 minute from start to finish

OPEN PLATFORM WITH NO CONTINUED FEES

- Easy to export to your treatment planning software or to send it to the lab of your choice
- Maximize your ROI with no continued fees

pspix2

By your side, to care for everyone

ACTEON® place its 20 years of expertise at your service and those of your patients.

The first simple and intuitive personal imaging plate scanner provides outstanding images and was designed to free practitioners from constraints.

Whatever your patient's morphology or pathology, the PSPIX®² adapts to your needs. As your personal assistant or in collaborative mode, experience high productivity without compromising on quality.

- 1 - **Striking Contrast** for a more reliable Diagnosis
- 2 - **The Smallest Scanner** on the market

Servotome II A New Impulse In Electrosurgery

2 YEARS WARRANTY

Experience the benefits of eletrosurgery

High frequency electrosurge or orthodontics, periodontics and other oral surgery with a single footswitch, a box with 10 electrodes & a conductive bracelet.

Electrosection

Vaporizing the tissue with the active electrode makes it possible to cut quickly without damaging the edges of the incision.

Fulguration

Makes it possible to surface coagulate gingival tissue while protecting the underlying layer.

Coagulation

Concentrating energy at the surface of a massive electrode makes it possible to diffuse the heat to the surrounding tissue and produce instantaneous hemostasis.

PIEZOELECTRIC SURGERY IS POWERFUL ENOUGH TO CARRY OUT EXTRACTIONS AT THE SAME SPEED¹ AS ROTARY INSTRUMENTS!

- Socket preservation⁹
- Safe for soft tissues
- Recommended for immediate implant placement
- No force needed
- 50% less pain & swelling²
- 98% less analgesics intake¹

EXPASYL™ EXACT

An EXACT solution for atraumatic gingival retraction

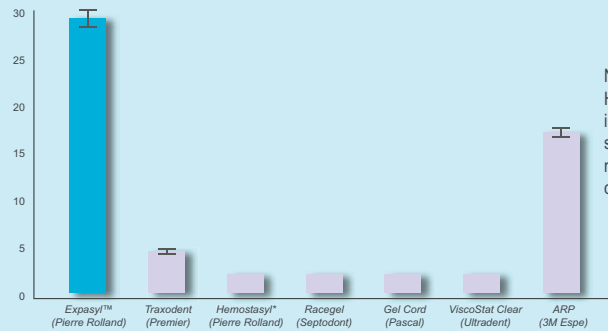

Expasyl™ Exact paste provides excellent benefits with little risks. Its viscosity has been carefully calculated to open the sulcus effectively without damaging the epithelial attachment.

Your procedure is both safe and effective.

No need to wait for the tissue healing since it has not been damaged.

Generates pressure 1.7 to 9.2 times greater*

Note: Hemostasyl is included in this study but is not a retraction compound.

Adapted from American Association for Dental Research

*than other retraction paste available on the market.⁴ Data on file.

Leica M320 D Dental Microscope

With Integrated 4K Camera

Enjoy better visualisation during surgical and non surgical dental procedures, benefit from increased physical comfort, and show your expertise to peers and patients with astounding 4K images.

Inspired by dentists - With the M320 dental microscope you can achieve better treatment results and optimise outcomes through high precision microdentistry. To help you share your expertise with patients and peers you can record your procedures in impressive 4K image and video quality.

Developed for dentists - The ergonomic microscope design of the M320 enhances your physical comfort and thus increases efficiency in different fields including restorative dentistry, endodontics, prosthodontics and aesthetic dentistry as well as periodontics and implantology.

Not all products or services are approved or offered in every market and approved labeling and instructions may vary between countries.

Call us for a demonstration

PHYSICAL COMFORT INCREASES EFFICIENCY

Ensure you are sitting comfortably so that you can work without interruptions for repositioning yourself. Leica Microsystems offers a choice of objective lenses, binocular tubes, and ergonomic accessories that suit your body frame, specialty, and working preference.

Binocular tube with 45° angle

Work in comfortable standard position with a fixed 45° viewing angle

ErgoWedge for the 45° binoculars

Enjoy working more ergonomically with a tiltable viewing angle of 5–25°

Binocular tube for 180° movement

Enhance comfort and flexibility through an even wider range of viewing angles

ErgonOptic Dent accessory

Extends the reach of the microscope and allows to swivel the optics carrier to any angle

Ultra-low binoculars for an upright posture

Work in a more compact position with your body and arms closer to the operating field
